Dear Mr. McCormick:

The Mining and Reclamation Plan for the NL Rowley magnesium facility was received yesterday by the Division.

Generally the plan appears complete and well set out. In the initial review however, two things were discovered to be needed, a map of the facility and a commitment to Division Rule M-10. I believe you said you had a map of the area utilize for the plant and a general plan of the dikes. The Rule M-10 commitment is fairly self-explanatory, form MR-8 is included to assist your preparation of this.

Formal review will begin upon receipt of the above mentioned materials.

Sincerely,

RONALD W. DANIELS
